Summary

Full Stack Developer with experience in building scalable web and mobile applications. Skilled in modern frameworks for frontend and backend development, API integration, database management, and cloud deployment. Adept at creating responsive user interfaces, writing clean code, and optimizing application performance. Seeking to contribute to impactful software projects in a collaborative environment.

Core Skills

Frontend: HTML5 | CSS3 | JAVASCRIPT | TYPESCRIPT | REACT | NEXT.JS
Backend: JAVA | SPRING BOOT | NODE.JS | EXPRESS.JS

Cloud & DevOps: AWS | DOCKER

Tools & Technologies: GIT | GITHUB | REST APIs | VS CODE | POSTMAN | CI/CD | NPM | YARN

Experience

Full Stack Developer, Tosh Consult | 08/2024 - 08/2025

- Spearheaded front-end development for multiple projects, building scalable and maintainable user interfaces using React and Tailwind CSS.
- Integrated seamlessly with Node.js APIs to implement real-time data updates and dynamic content rendering.
- Delivered fast, responsive, and accessible UI components optimized for performance across devices and browsers.
- Collaborated closely with AI and backend teams to interpret technical data and present complex outputs in user-friendly formats.
- Deployed and maintained applications in a cloud-based environment (AWS), ensuring high availability and iterative improvements using agile methodologies.
- Mentored junior developers by sharing best practices in coding, debugging, and software design to foster team growth and code quality.

CO-Founder & Tech Lead, GuidEd | 02/2022 - 08/2025

- Founder and CEO of **GuidEd**, an AI-powered learning platform aimed at transforming how students engage with educational content.
- Designed the platform to deliver courses through video, structured written content, and personalized AI-driven assistance for a smarter, adaptive learning experience.
- Leading product strategy and technical development, including building a responsive interface and ensuring smooth course delivery.
- Integrated intelligent AI support to personalize learning experiences and meet individual user needs.
- Focused on creating a **scalable, accessible, and AI-enhanced** educational tool for modern learners.

Software Engineer & Tutor | 11/2017 - 08/2025

- Developed and deployed web and mobile applications across multiple platforms, ensuring smooth functionality and consistent user experience.
- Led the design, development, and maintenance of various company websites, including those for marketing, sales, blogs, promotions, and customer support.
- Managed a cross-functional team of 4 front-end developers and designers, fostering collaboration and maintaining high-quality code standards.
- Played a key role in building and maintaining a Learning Management System (LMS), focusing on user authentication, course management, and responsive design.
- Proactively identified and resolved technical issues to ensure stable, efficient system performance across all supported platforms.
- Built applications from scratch using core web technologies, while continuously improving site performance and usability.
- Mentored students in web development, teaching coding fundamentals, best practices, and guiding them through hands-on project experience.

Projects

- [Guided Ai Powered E-Learning Platform](#) is a modern eLearning platform designed to revolutionize digital education through AI-driven personalization. With integrated tools for real-time assistance, student progress tracking, and scalable content management, GuidEd empowers learners to engage more effectively and instructors to deliver impactful content efficiently.
- [Unilorin Student Connect](#) A full-featured campus connection platform developed for a client to foster collaboration and community among students. The platform allows users to post academic resources, engage in a peer-to-peer marketplace, and communicate via real-time chat. Built with **Socket.io** for real-time messaging and online/offline presence tracking, the application offers a seamless and interactive user experience. The project was successfully completed, deployed, and delivered with a focus on scalability, reliability, and user engagement.

Education

University of Ilorin
Bachelor of Science | 07/2024
